A preschool experience should be fun...

Our preschool is a full, fun-packed session that meets two or three mornings a week. We seek to develop a love of learning and provide activities that are age-appropriate to meet the needs and learning styles of each child. We believe that early childhood is a critical time in the development of a child's perceptions of self, others, the world and God. Our goal is to provide a preschool curriculum that stimulates the child's academic, emotional, social and physical development while maintaining a strong Christian emphasis throughout.

About our Curriculum...

Our curriculum and activities are based on academic standards and themes which encourage development in reading readiness, social studies, science, math, creativity, large and small muscle coordination, music and most importantly, developing Godly character.

About the Teachers...

Our teachers at Valley Assembly Preschool are certified in Early Childhood Education. They have a passion for teaching, nurturing and helping preschool-aged children become all that God intends for them to be. Their many years of teaching and expertise help them foster within each child a love for learning and a positive image of God, self and others.

Two Day Class...
